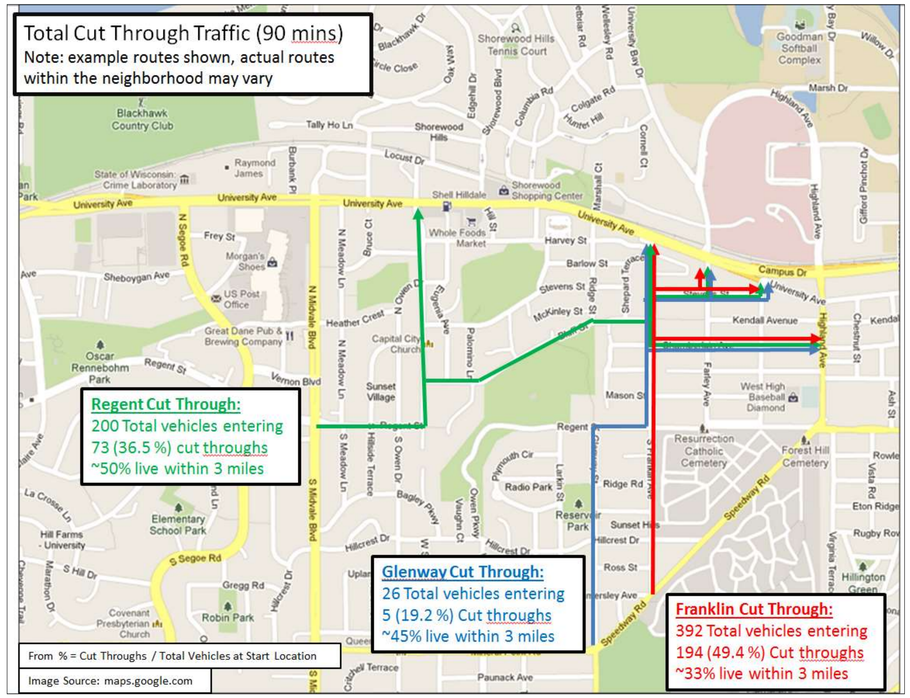
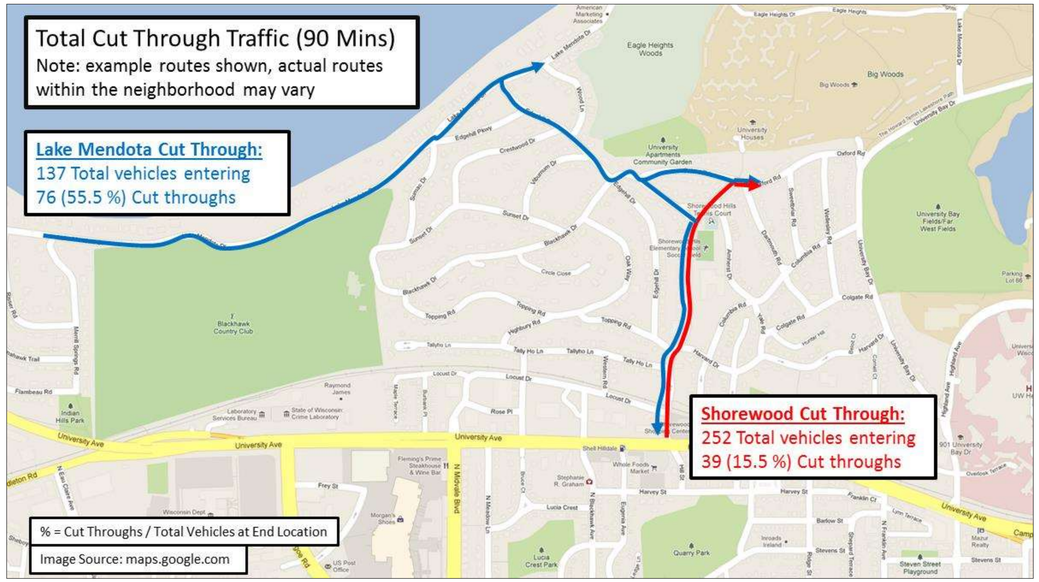
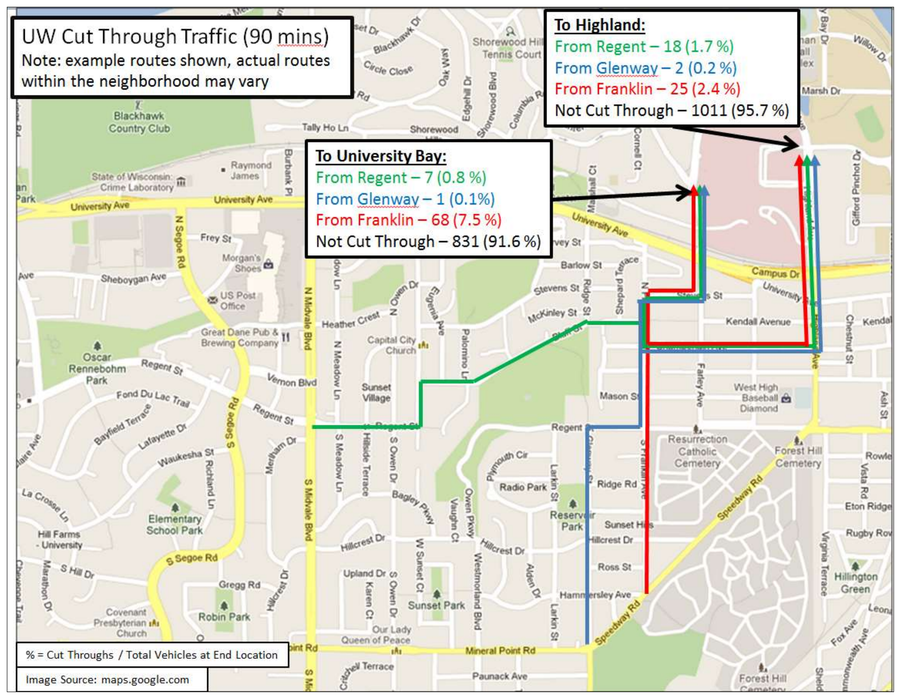
Cut Through Traffic







Cost & "Severity"

- **Mitigation Strategies**
  - Education:
    - Yard signs encouraging slower speeds
    - Permanent speed display signs
    - First day of school/periodic roadside gatherings of neighbors
  - Enforcement (speed limit):
  - Engineering:
    - Additional calming measures
    - Permanent changes in circulation (one-way streets or partial/complete closures)

- **Neighbors, Local Officials, and Staff need to agree upon if/how to mitigate impacts of cut through traffic**

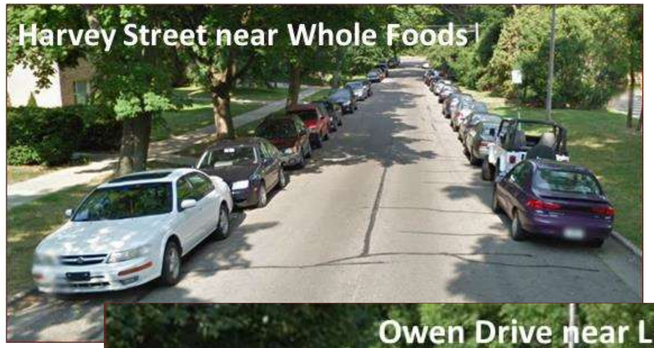
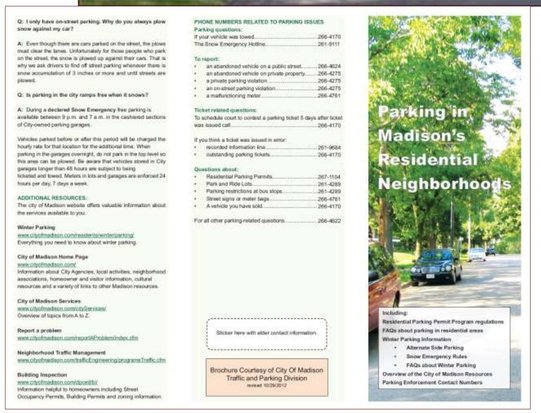
Neighborhood Parking





Q: I only have on-street parking. Why do you always plow snow against my car?

A: Even though there are cars parked on the street, the plows must clear the lanes. Unfortunately for those people who park on the street, the snow is plowed up against their cars. That is why we ask drivers to find off street parking whenever there is snow accumulation of 3 inches or more and until streets are plowed.

Q: Is parking in the city ramps free when it snows?

A: During a declared Snow Emergency free parking is available between 9 p.m. and 7 a.m. in the cashiered sections of City-owned parking garages.

Vehicles parked before or after this period will be charged the hourly rate for that location for the additional time. When parking in the garages overnight, do not park in the top level so this area can be plowed. Be aware that vehicles stored in City garages longer than 48 hours are subject to being ticketed and towed. Meters in lots and garages are enforced 24 hours per day, 7 days a week.
